

Transformers

Transformers provide multiple voltage connections. They can be used to increase or decrease voltage, supply power to your power grid and isolate your critical loads. Our transformers are set up specifically for rental and include cam-lock inputs and outputs, fork pockets and reinforced sub frame with lifting eyes.

TECHNICAL DATA

Size	Voltage	Connections
30 KVA	480 - 120/208 Y	Cam-lock
45 KVA	480 - 120/208 Y	Cam-lock
75 KVA	480 - 120/208 Y	Cam-lock
112.5 KVA	480 - 120/208 Y	Cam-lock
150 KVA	480 - 120/208 Y 600 - 480	Cam-lock
225 KVA	480 - 120/208 Y	Cam-lock
300 KVA	480 - 120/208 Y 600 - 480	Cam-lock
500 KVA	480 - 120/208 Y	Cam-lock
1000 KVA	4160/2400 - 277/480 600 - 480	Two Hole Lug
1500 KVA	4160/2400 - 277/480	Two Hole Lug
2500 KVA	Primary: 2400/4140/7200/12000-14400 Secondary: 277/480	Two Hole Lug
