- + All are UL 2200 listed
- + Long life to overhaul
- + Open or sound attenuated enclosure is available
- + Parts availability: 92% fill rate, 99% overnight

SAME QUALITY. SAME PERFORMANCE.

When it comes to power, there is no such thing as a convenient outage. It is essential that you prepare for emergencies before choices are limited and loss is unavoidable. Ask yourself, when you are without power, how much do you risk losing per hour, per day, per week?

Caterpillar is here to provide you with the value and reliability that can only come from Cat® power systems. The new Cat GC diesel generator sets share the same quality and performance as our critical application product line but are value engineered to reduce installation costs, valuable footprint, freight costs, and, of course, the cost of ownership.
